

# FV SERIES – 45 MINUTE FIRE

**FV6032E5**

The American Security Products FV gun safe offers both performance and value. For burglary protection, it has a stout 3/16" - thick steel plate in the door. For fire protection, it is lined with 2 to 3 layers of drywall that are strategically engineered for optimal fire protection. This enables the FV Gun Safe to pass a verified 45-minute fire test at Intertek, an independent testing laboratory.

## SECURITY
