SECTION 4 - First Aid Measures

Eye: Immediately flush with water for 15 minutes

Skin: Remove from skin and wash thoroughly with soap and water or waterless cleanser. Get medical attention

if irritation or other ill effects develop or persist.

Inhalation: Remove to fresh air. Get medical attention if ill effects persist.

Oral: Get medical attention.

Comments: Treat according to person's condition and specifics of exposure.

SECTION 5 - Fire Fighting Measures

Flash Point: Not applicable - Solid

Autoignition Temperature: Not determined Flammability Limits in Air: Not determined

Extinguishing Media: On large fires, use dry chemical, foam or water spray. On small fires, use carbon

dioxide (CO₂), dry chemical or water spray. Water can be used to cool fire exposed containers.

Fire Fighting Measures: Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emer-

gency plan. Use water spray to keep fire exposed containers cool.

Unusual Fire Hazards: None

HAZARDOUS DECOMPOSITION PRODUCTS

Thermal breakdown of the product during fire or very high heat conditions may evolve the following hazardous decomposition products: Carbon oxides and traces of incompletely burned carbon compounds; Nitrogen oxides; Sulfur oxides; Metal oxides; Phosphorous oxides; Formaldehyde.

SECTION 6 - Accidental Release Measures

CONTAINMENT/CLEANUP

Observe all personal protection equipment recommendations described in Sections 5 and 8. Wipe up or scrape up and contain for salvage or disposal. Clean area as appropriate since some silicone materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbent or cleaning materials appropriately, since spontaneous heating may occur. Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this MSDS provide information regarding certain federal and state requirements.

NOTE: See Section 8 for Personal Protective Equipment for Spills. Call Dow Corning Corporation, 989.496.5900, if additional information is required.

SECTION 7 - Handling and Storage

Use with adequate ventilation. Avoid eye contact. Avoid skin contact. Avoid breathing vapor, mist dust or fumes. Keep container closed. Do not take internally.

Use reasonable care and store away from oxidizing materials.

ENGINEERING CONTROLS

Local Ventilation: Recommended General Ventilation: Recommended

PERSONAL PROTECTIVE EQUIPMENT FOR ROUTINE HANDLING

Eyes: Use proper protection - safety glasses as a minimum

Skin: Wash at mealtimes and end of shift. Contaminated clothing and shoes should be removed as

soon as practical and thoroughly cleaned before reuse. Chemical protective gloves are

recommended.

Suitable Gloves: Neoprene Rubber (R). Polyvinylalcohol. Nitrile Rubber. Polyvinylchloride.

Inhalation: Use respiratory protection unless adequate local exhaust ventilation is provided or air

sampling data show exposures are within recommended exposure guidelines. Industrial Hygiene Personnel can assist in judging in adequacy of existing engineering controls.

Suitable Respirator: General and local exhaust ventilation is recommended to maintain vapor exposures below

recommended limits. Where concentrations are above recommended limits as determined by air sampling or are unknown, appropriate respiratory protection should be worn. Follow OSHA Respirator Regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators.

PERSONAL PROTECTIVE EQUIPMENT FOR SPILLS

Eyes: Use full face respirator.

Skin: Wash at mealtime and end of shift. Contaminated clothing and shoes should be removed as

soon as practical and thoroughly cleaned before reuse. Chemical protective gloves are

recommended.

Inhalation/Suitable

Respirator:

Respiratory protection recommended. Follow OSHA Respirator Regulations (29 CFR 1910.134) and use NIOSH/MHSA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied

respirator if there is any potential for uncontrolled release, exposure levels are unknown or any other circumstance where air purifying respirators may not provide adequate

protection.

Precautionary Measures: Avoid eye contact. Avoid skin contact. Avoid breathing vapor, mist, dust or fumes. Keep

container closed. Do not take internally. Use reasonable care.

NOTE: These precautions are for room temperature handling. Use at elevated temperatures or aerosol/spray applications may require added precautions.
