

Amsec/Star

MAG557304

This Template is designed for the “C” rate door (lift out door and hinged door).

The labels (printed letters on templates) are defined as follows:

F1 - Center for the fence on the hinged door

F2 - Center for the fence on the lift out door

To insure proper mounting, place a mark on the door at zero before removing the dial ring/handle.

To mount the template, remove the dial and dial ring from the safe. Use the dial ring screws to secure the template to the safe, orienting the mark on the door at zero and attaching the template with the F1 and F2 at the right side of the door.

To mount the **Bullet Base** to the template, choose the proper drill point and attach the **Bullet Base** to the template using the 8-32 screws.
